

SUSTAINABLE PROCUREMENT POLICY

Torrent Power Limited – Distribution (TPL-D) is committed to promote the green consciousness through an inclusive approach that encompasses the activities of its Supply Chain Partners (SCP) and to achieve excellence in Environmental Performance and Sustainability.

TPL-D is committed to comply with all applicable legislative and other requirements.

TPL-D shall endeavor to:

- > Encourage the SCP to comply with environmental norms, conserve natural resources, minimize waste generation and adopt energy efficiency.

- > Incorporate legal and regulatory compliances related to environment and the environmental performance as the key criteria in the evaluation of SCP.

- > Promote and adopt energy efficient and environment friendly products, systems and processes while procuring material, equipment and services.

- > Conduct training, awareness, consultation and participation programs periodically with the SCP for continual improvement in environmental sustainability.

- > Ensure that appropriate resources are available to fully implement the Sustainable Procurement Policy.

- > To review and update the Sustainable Procurement Policy periodically or as and when required.

We understand that procurement performance is a continual improvement process and recognize the contribution of SCP in our journey towards Sustainability.
