Ahmedabad, November 11, 2025: Torrent Power Limited (the “Company”) today announced financial results for the quarter and six months ended September 30, 2025.

The strong operational performance contributing to higher TCI of ₹ 238 Crs for the quarter on a year-on-year is primary attributable to:

- ⬆ Increase in contribution from merchant power sales, including LNG sales, from gas-based power plants; and
- ⬆ Reduction in finance cost, partially offset by increase in depreciation costs due to capex & commissioning of additional renewable generation capacity.

Developments during the Quarter:

➤ Secured 1,600 MW Thermal Project in Madhya Pradesh

The Company secured Letter of Award from MP Power Management Company Limited for the long-term supply of power from a new 1,600 MW coal-based power plant, at a tariff of ₹5.829 per kWh.

➤ Green Hydrogen Plant Inaugurated in Gorakhpur

The Hon’ble Chief Minister of Uttar Pradesh, Shri Yogi Adityanath, inaugurated Torrent Group’s first Green Hydrogen Plant in Gorakhpur, developed by Torrent Power and Torrent Gas with an annual production capacity of 72 TPA. The project is India’s largest hydrogen-natural gas blending initiative within the City Gas Distribution sector.
