Ahmedabad – 380015

- 1. We have reviewed the unaudited consolidated financial results of Torrent Power Limited (the "Parent"), its subsidiaries (the parent and its subsidiaries hereinafter referred to as the "Group") and its associate company [(refer Note 1 on the Statement)] for the quarter ended June 30, 2021 which are included in the accompanying Statement of Consolidated Financial Results for the quarter ended June 30, 2021 (the "Statement"). The Statement is being submitted by the Parent pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the "Listing Regulations"), which has been digitally signed by us for identification purposes.
- 2. This Statement, which is the responsibility of the Parent's Management and has been approved by the Parent's Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013, and other accounting principles generally accepted in India. Our responsibility is to express a conclusion on the Statement based on our review.
- 3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of India. This Standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement is free of material misstatement. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

We also performed procedures in accordance with the circular issued by the SEBI under Regulation 33 (8) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, to the extent applicable.

- 4. The Statement includes the results of the following entities:

Notes:

- 1 The consolidated financial results include the financial results of Torrent Power Limited (the "Company") and nine subsidiaries: Torrent Power Grid Limited, Torrent Pipavav Generation Limited, Torrent Solargen Limited, Jodhpur Wind Farms Private Limited, Latur Renewables Private Limited, TCL Cables Private Limited, Torrent Solar Power Private Limited, Torrent Saurya Urja 2 Private Limited and Torrent Saurya Urja 3 Private Limited (the "Group"). The Company has not invested equity in its associate Wind Two Renergy Private Limited and accordingly, share of profit of the associate is not included in the consolidated financial results.
- 2 Revenue from operations for the comparative quarter of previous year ended June 30, 2020 includes ₹ 250.62 Crore on account of favourable orders received from the Appellate Tribunal for Electricity in respect of disputed Revenue Gap related to carrying costs of earlier years.
- 3 Net carrying value of Property, Plant & Equipment ("PPE") as at June 30, 2021 includes ₹ 2,829.36 Crore pertaining to 1,200 MW DGEN Mega Power Project located at Dahej, Gujarat ("DGEN"). DGEN started commercial operations with effect from November 2014 and thereafter has operated only intermittently / partially.

The Company had carried out an impairment assessment of DGEN as at March 31, 2021 considering the recoverable amount based on value in use of DGEN in accordance with Indian Accounting Standard 36 'Impairment of Assets' and concluded that no further impairment provision is necessary as at March 31, 2021. The Company has reviewed the key assumptions underlying the above assessment as on June 30, 2021 and concluded that no further impairment provision is considered necessary as at June 30, 2021.

Assessment of 'value-in-use' involves several key assumptions including expected demand, future price of fuel, expected tariff rates for electricity, discount rate, exchange rate and electricity market scenario, based on past trends and the current and likely future state of the industry. Management reviews such assumptions periodically to factor updated information based on events or changes in circumstances in order to make fresh assessment of impairment, if any.

- 4 Impact of COVID 19 pandemic:
 - Consequent to Covid 19 pandemic, the Group has made detailed assessment of its liquidity position, recoverability of carrying values of its financial and non-financial assets and impact on revenues and believes that there is no material adjustments required to be made in the financial results for the quarter ended June 30, 2021. Management will continue to monitor any material changes to future economic conditions and the impact thereof on the Group.
- Torrent Pipavav Generation Limited ("TPGL"), a subsidiary of the Company and a joint venture between the Company and Gujarat Power Corporation Limited ("GPCL"), had paid for acquisition of land in Amreli, Gujarat for the purpose of developing a coal based power plant of 1,000+ MW. Due to non-availability of fuel linkage, Government of Gujarat ("GoG") vide its letter dated December 06, 2017, communicated that the said project may not be developed and accordingly, the joint venture is intended to be dissolved. With reference to this, in the month of March 2019, GPCL has written a letter to Collector, Amreli stating that the land is surrendered to the Government and requested Energy and Petroleum Department, GoG to take further action in the matter. The management has made an impairment assessment of the carrying amount of the land by comparing it with the circle rates published by GoG for the purpose of levy of stamp duty, on the basis of which it has been concluded that there is no impairment in the carrying amount of the land. The timing of the recoverability of the amounts invested in land would depend upon the availability of the buyer. Considering the above facts, assets and liabilities are reflected at their net realisable values or cost whichever is lower and the financial statements of TPGL for the year ended June 30, 2021 have been prepared on a non going concern basis. The recovery of the amount invested for land is dependent on the ability of GoG to find a suitable buyer for the land.
- 6 Chief operating decision maker evaluates the Group's performance and allocates resources to the whole of Group's business viz. "Generation, Transmission and Distribution of Power" as an integrated utility. Further, the Group's cable business is not a reportable segment in terms of revenue, profit, assets and liabilities. Hence the Group does not have any reportable segment as per Ind AS 108 "Operating Segments". Group's operations are wholly confined within India and as such there is no reportable geographical information.
