

Torrent Green Energy commissions landmark 322 MWp decentralized solar projects in Maharashtra under MSKVY PM-KUSUM scheme

Powering Maharashtra's farmers and accelerating India's Green Energy Transition

Ahmedabad, 8 Sept 2026: Torrent Green Energy Private Limited, a Torrent Group company and wholly owned subsidiary of Torrent Power Limited, has successfully commissioned 322 MWp of ground-mounted decentralized solar power projects across Nashik district, Maharashtra, under the Mukhyamantri Saur Krushi Vahini Yojana (MSKVY) 2.0 – a scheme launched for implementation of feeder level solarisation under Component-C of PM-KUSUM scheme.

Developed across 50 locations and spanning 14 talukas of Nashik district, the solar portfolio represents one of the most extensive and geographically diversified agricultural feeder solarization projects implemented under the MSKVY framework. Power from the Project will be supplied to MSEDCL under 25 years Power Purchase Agreement.

Aligned with the Government of India's agricultural solarization and energy self-reliance goals, the project brings clean energy generation closer to agricultural demand centres. Local solar plants powering rural feeders will ensure daytime electricity for farmers, enhance grid efficiency, reduce distribution losses and support sustainable agriculture. The successful execution of this complex project required coordinated development across multiple locations, involving resolving land issues, grid connectivity, local clearances, engineering excellence, and simultaneous construction activities.

"The project stands as a testimony to the collaborative efforts of MSEDCL, local administration, landowners, project partners, contractors, and the dedicated team of Torrent. This milestone reinforces Torrent's commitment to supporting India's clean energy transition while empowering the agricultural sector with reliable and sustainable daytime electricity supply" said **Jigish Mehta, Whole-Time Director of Torrent Power Ltd.**

About Torrent Power:

Torrent Power, the ₹ 29,000 Cr. integrated power utility of the ₹ 49,000 Cr. Torrent Group, is one of the largest companies in the country's power sector with presence across the entire power value chain – generation, transmission and distribution.

Generation:

- ❖ The Company has an aggregate operational generation capacity of 6.66 GWp comprising 2.73 GW of gas-based capacity, 2.2 GWp of renewable capacity and 1.73 GW of coal-based capacity. Further, Renewable projects of ~4.56 GWp, Pumped Storage Capacity of 3 GW and coal-based capacity of 1.6 GW are under construction. Total Generation capacity, including projects under construction, is ~12.82 GWp in addition to 3 GW PSP capacity, positioning Torrent Power as a key player in India's energy transition.

Distribution:

- ❖ The Company distributes nearly 31 billion units to around 4.3 million customers in the cities of Ahmedabad, Gandhinagar, Surat, Dahej SEZ and Dholera SIR in Gujarat, Union Territory of Dadra and Nagar Haveli and Daman and Diu (DNH & DD), Bhiwandi, Shil, Mumbra and Kalwa in Maharashtra and Agra in Uttar Pradesh.
- ❖ Torrent Power is widely considered to be the leading power distributor in India and in its licensed areas in Gujarat have the distinction of having the lowest distribution losses and best reliability indices in the country, reinforcing customer trust and satisfaction.
