Torrent Power Limited - Dholera Distribution Area

Report on special purpose financial statements

1. This report is issued in accordance with the terms of our agreement dated August 04, 2025.
2. We have audited the accompanying Balance sheet as at March 31, 2025, the statement of profit and loss (including other comprehensive income), the statement of cash flows and the statement of changes in equity for the year ended on that date and a summary of material accounting policies and other explanatory information of these special purpose financial statements (the 'financial statements') of Dholera Distribution Area [TPL- D (Dholera)] of Torrent Power Limited (the "Company") (hereinafter referred to as 'financial statements'). The financial statement have been prepared by management pursuant to the requirement mentioned in the Regulation 17.3 of the Gujarat Electricity Regulatory Commission (Multi-Year Tariff) Regulations, 2016, dated March 29, 2016 for the purpose of submission to the Gujarat Electricity Regulatory Commission ('GERC'), which we have digitally signed under reference to this report.

Management's Responsibility for the Financial Statements

3. Management is responsible for the preparation of these financial statements in accordance with the accounting principles generally accepted in India including the Indian Accounting Standards specified in the Companies (Indian Accounting Standards) Rules, 2015 (as amended) under Section 133 of the Act, to the extent considered relevant as set out in note 2 to the financial statements by it for the purpose for which these financial statements have been prepared. The responsibility includes the design, implementation and maintenance of internal control relevant to the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

4. Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Companies Act, 2013 ("the Act") and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

Post its conversion to Price Waterhouse Chartered Accountants LLP, its ICAI registration number is 012754N/N500016 (ICAI registration number before conversion was 012754N)

Price Waterhouse Chartered Accountants LLP

To the Board of Directors
Torrent Power Limited
Report on financial statements
Page 2 of 3

5. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by Management, as well as evaluating the overall presentation of the financial statements.
6. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

7. In our opinion and to the best of our information and according to the explanations given to us, the financial statements of Dholera Distribution Area [TPL- D (Dholera)] of the Company for the year ended March 31, 2025 are prepared, in all material respects, in accordance with the accounting policies set out in note 2 to the financial statements.

Emphasis of Matter

8. We draw attention to Note 2.1 to the financial statements, which describes the basis of its preparation in the manner as required by the Gujarat Electricity Regulatory Commission (GERC). The financial statements are not the statutory financial statements of the Company, and are not intended to, and do not, fully comply with the disclosure provisions applicable to statutory financial statements prepared under the Companies Act, 2013, as those disclosures are not considered relevant by the Management and the intended users of the financial statements for the purpose for which those have been prepared. Our opinion is not modified in respect of this matter.

Other Matters

9. The financial statements dealt with by this report, have been prepared for the express purpose of submission to the GERC.
10. The Company has prepared its statutory financial statements for the year ended March 31, 2025 in accordance with the Indian Accounting Standards (Ind AS) notified under Section 133 of the Act on which we issued an unmodified opinion vide our audit report dated May 14, 2025.

Our opinion is not modified in respect of these matters.

Restriction on Use

11. Our obligations in respect of this report are entirely separate from, and our responsibility and liability is in no way changed by, any other role we may have or may have had as auditor of the Company or otherwise. Nothing in this report, nor anything said or done in the course of or in connection with the services that are the subject of this report, will extend any duty of care we have or may have had in our capacity as auditor of the Company.
12. This report has been issued at the request of the Board of Directors of the Company to whom it is addressed, solely for submission to GERC to comply with the requirements of Regulation 17.3 of the Gujarat Electricity Regulatory Commission (Multi-Year Tariff) Regulations, 2016, dated March 29, 2016 and should not be used by any other person or for any other purpose. Price Waterhouse Chartered Accountants LLP does not accept or assumes any liability or any duty of care for any other purpose or to any person other than the Company.

TORRENT POWER LIMITED
Dholera Distribution Area

Notes forming part of the financial statements for the year ended March 31, 2025

Note 1(a): General information

These special purpose financial statements comprising of the Balance sheet as at March 31, 2025, the Statement of Profit and Loss (including other comprehensive income), the Statement of Cash flows and the Statement of Changes in Equity for the year ended on that date and a summary of material accounting policies and other explanatory information, to the extent considered relevant for the purpose of Dholera Distribution license Area [TPL- D (Dholera)] of Torrent Power Limited ("the Company") (hereinafter referred to as 'financial statements') have been prepared by the management for the purpose of submission to the Gujarat Electricity Regulatory Commission (GERC).

TPL-D (Dholera) operates in electricity distribution activities in Dholera licence area as per the prevailing regulatory framework in accordance with the provisions of the Electricity Act, 2003.

Note 1(b): New standards or interpretations adopted by TPL-D (Dholera)

The Ministry of Corporate Affairs vide notification dated September 09, 2024 and September 28, 2024 notified the Companies (Indian Accounting Standards) Second Amendment Rules, 2024 and Companies (Indian Accounting Standards) Third Amendment Rules, 2024, respectively, which amended/notified certain accounting standards (see below), and are effective for annual reporting periods beginning on or after April 01, 2024:

- i) Ind AS 117 – Insurance Contracts
- ii) Ind AS 116 – Leases

The above amendments did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

Note 2 (a): Material accounting policies

2.1 Basis of preparation:

Compliance with Ind AS

These financial statements have been prepared /extracted from the books and records and audited financial statements of the Company which are based on Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act 2013 (the 'Act') read with the [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Companies Act, 2013 and rules made there under.

The principles of measurement, recognition and disclosure (to the extent considered relevant) followed for preparation of these financial statements are consistent with the accounting policies followed by Torrent Power Limited in its annual standalone audited financial statements for the year ended March 31, 2025 subject to the following:

- (i) Tax Provision

The Company's corporate tax liability under Income Tax Act, 1961 is assessed for the Company as a whole and accordingly no current tax or deferred tax has been accounted for in these financial statements of TPL- D (Dholera).

TORRENT POWER LIMITED
Dholera Distribution Area

Notes forming part of the financial statements for the year ended March 31, 2025

(ii) Basis of allocation of common expenditure:

The expenditure incurred by the Company that is directly attributable to TPL-D (Dholera) is allocated to TPL-D (Dholera). The common expenditure incurred by the Company is allocated between the various units/areas of the Company in the ratio determined based on the respective sales of each unit/area as a proportion to the total sales of the Company, including inter-unit sales.

(iii) Transactions between Head Office/Inter-Unit:

Head office account represents the closing balance which has been arrived at after considering transactions with Head Office and all inter-unit transactions. The profit/(loss) earned during the year by the TPL-D (Dholera) also gets transferred to Head Office account as at the year end.

(iv) Loan balances:

Loan from Head Office represents the amount of funding by the Head office to TPL-D (Dholera) towards unrecovered /unbilled regulatory gap including disputed regulatory gap as assessed by the management.

(v) Events after the Reporting Period

These financial statements do not reflect the effects of events that occurred subsequent to May 14, 2025, i.e., the date on which the statutory financial statements of the Company for the year ended March 31, 2025, were authorized by the Board of Directors, for the purpose of comparability.

Historical cost convention

The financial statements have been prepared on the historical cost basis except for following which have been measured at fair value;

- Defined benefit plan assets

All assets and liabilities have been classified as current or non-current as set out in the Schedule III (Division II) to the Companies Act, 2013.

2.2 Property, plant and equipment:

All items of property, plant and equipment held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses, if any.

Capital work in progress in the course of construction for production, supply or administrative purposes is carried at cost, less any recognised impairment loss, if any. Cost includes purchase price, taxes and duties, labour cost and other directly attributable costs incurred up to the date the asset is ready for its intended use. Such property, plant and equipment are classified to the appropriate categories when completed and ready for intended use. Directly attributable costs are capitalized until the asset is ready to use in accordance with the company's accounting policy of capitalization.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to TPL-D (Dholera) and the cost of the item can be measured reliably.

TORRENT POWER LIMITED
Dholera Distribution Area

Notes forming part of the financial statements for the year ended March 31, 2025

Subsequent costs relating to day- to-day servicing of the item are not recognised in the carrying amount of an item of property, plant and equipment; rather, these costs are recognised in profit or loss as incurred.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Depreciation methods, estimated useful lives and residual value

Depreciation commences when the assets are ready for their intended use. Depreciation for the year is provided on additions / deductions of the assets during the period from / up to the month in which the asset is added / deducted. Depreciation on property, plant and equipment is provided on straight line basis using the depreciation rates, the methodology and residual value as per the provisions of Annexure-I of Section 39 of Chapter 3 of Gujarat Electricity Regulatory Commission (Multi Year Tariff) Regulations, 2016. The effect of any such change in estimate in this regard is being accounted for on a prospective basis.

The range of depreciation rates of property, plant and equipment are as follows:

Class of assets	Rate of depreciation
Buildings	3.34%
Plant and machinery	5.28% to 6.33%
Electrical fittings and apparatus	6.33%
Furniture and fixtures	6.33%
Office equipment	5.28% to 6.33%

2.3 Impairment of assets:

Property, plant and equipment (including Capital work-in-progress) and Intangible assets are reviewed for impairment losses whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the carrying amount of the assets exceeds its recoverable amount, which is the higher of an asset's fair value less costs of disposal and value in use. Value in use is the present value of the future cash flows expected to be derived from an asset or cash-generating unit. An impairment loss is recognised immediately in profit or loss.

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

2.4 Cash and cash equivalents:

For the purpose of presentation in the statement of cash flows, cash and cash equivalents include cash on hand, current account balances with banks and other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value [Also refer note 2.1].

TORRENT POWER LIMITED
Dholera Distribution Area

Notes forming part of the financial statements for the year ended March 31, 2025

2.5 Inventories:

Stores and spares and loose tools are stated at the lower of cost and net realisable value. Cost of inventories includes purchase price and all costs incurred in bringing the inventories to their present location and condition. Costs are assigned to individual items of inventory on the weighted average basis. Costs of purchased inventory are determined after deducting rebates and discounts.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

2.6 Revenue recognition:

Revenue towards satisfaction of a performance obligation is measured and recognized at transaction price, when the control of the goods or services has been transferred to consumers net of discounts and other similar allowances.

(i) Revenue from power supply is accounted for in accordance with the principles laid down under the relevant Tariff Regulations / Tariff Orders notified by the Electricity Regulator. Revenue recognised includes amounts billed to consumers on the basis of recording of consumption of energy by installed meters based on the applicable tariff and adjustments in respect of unbilled amounts towards revenue gaps / unapproved Fuel and Power Purchase Price Adjustment (FPPPA) which are recognised considering applicable tariff regulations / tariff orders, past trends of approval, management's probability estimate and when no significant uncertainty exists in such determination. Revenue from power supply excludes taxes and duties.

These adjustments / accruals are carried forward as 'Unbilled revenue' under "Other current financial assets" in Note 14, which would be adjusted through future billing based on tariff determination by the regulator in accordance with the electricity regulations.

(ii) Contributions by consumers towards items of property, plant and equipment, which require an obligation to provide electricity connectivity to the consumers, are recognised as a credit to deferred revenue. Such revenue is recognised in accordance with depreciation of such property, plant and equipment

2.7 Employee benefits:

Defined contribution plans

Contributions to retirement benefit plans in the form of provident fund, employee state insurance scheme, pension scheme and superannuation schemes as per regulations are charged as an expense on an accrual basis when employees have rendered the service. TPL-D (Dholera) has no further payment obligations once the contributions have been paid.

Defined benefits plans

The liability or asset recognised in the balance sheet in respect of the retirement benefit plan i.e. gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated by an actuary using projected unit credit method.

TORRENT POWER LIMITED
Dholera Distribution Area

Notes forming part of the financial statements for the year ended March 31, 2025

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligations.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of the plan assets. This cost is included in Capital work-in- progress.

Remeasurements, comprising actuarial gains and losses and the effect of the changes to the asset ceiling (if applicable), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur and consequently recognised in retained earnings and is not reclassified to profit or loss.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in TPL-D (Dholera)'s defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of reductions in future contributions to the plans.

Other long-term employee benefit obligations

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in Profit and Loss.

The said obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

2.8 Provisions, contingent liabilities, and contingent assets:

Provisions

A provision is recognized when TPL-D (Dholera) has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

Contingent liability

A possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the enterprise are disclosed as contingent liability and not provided for. Such liability is not disclosed if the possibility of outflow of resources is remote.

TORRENT POWER LIMITED
Dholera Distribution Area

Notes forming part of the financial statements for the year ended March 31, 2025

Contingent assets

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

Contingent assets are not recognised but disclosed only when an inflow of economic benefits is probable.

2.9 Financial instruments:

Financial assets

i) Classification of financial assets

TPL-D (Dholera) classifies its financial assets in the following measurement categories:

- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

ii) Initial measurement

Financial assets except trade receivables are initially measured at fair value. Transaction costs that are directly attributable to the acquisition (other than financial assets at fair value through profit or loss) are added to the fair value of the financial assets, as appropriate, on initial recognition. Transaction costs that are directly attributable to the acquisition or issue of financial assets at fair value through profit or loss are recognised immediately in profit or loss. Trade receivables which do not contain a significant financing component are measured at transaction price.

iii) Subsequent measurement

There are three measurement categories into which the debt instruments can be classified:

• Amortised cost

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other gains/(losses). Impairment losses are presented as separate line item in the statement of profit and loss.

• Fair value through other comprehensive income (FVOCI)

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains / (losses). Interest income from these financial assets is included in other income using the effective interest rate method. Foreign exchange gains and losses are presented

TORRENT POWER LIMITED
Dholera Distribution Area

Notes forming part of the financial statements for the year ended March 31, 2025

in other gains and losses and impairment expenses in other expenses. The Company currently does not have any debt instruments which are measured at FVOCI.

• Fair value through profit or loss (FVTPL)

Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other gains / (losses) in the period in which it arises. Interest income from these financial assets is included in other income.

iv) Impairment of financial assets

TPL-D (Dholera) assesses on a forward looking basis the expected credit losses associated with its financial assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115 only, TPL-D (Dholera) follows 'simplified approach' for recognition of impairment loss and always measures the loss allowance at an amount equal to lifetime expected credit losses. TPL-D (Dholera) has segmented the customers based on shared risk attributes, i.e. Government Consumers / Non-Government consumers, Status of Consumers i.e. Live consumers / Disconnected consumers and Security deposits provided by the Consumer.

v) Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from TPL-D (Dholera)'s balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- TPL-D (Dholera) has transferred its rights to receive cash flows from the asset

When the entity has transferred an asset, TPL-D (Dholera) evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of financial asset, the financial asset is derecognised if TPL-D (Dholera) has not retained control over the financial asset. Where TPL-D (Dholera) retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

vi) Income recognition

Interest income on financial assets at amortised cost is calculated using the effective interest method is recognised in the statement of profit and loss as part of other income.

TORRENT POWER LIMITED

Notes forming part of the financial statements for the year ended March 31, 2025

Financial liabilities

i) Classification

All TPL-D (Dholera)'s financial liabilities are measured at amortized cost.

ii) Initial measurement

Financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial liabilities are deducted from the fair value of the financial liabilities, as appropriate, on initial recognition.

iii) Subsequent measurement

Financial liabilities are subsequently measured at amortised cost using the Effective Interest Rate Method.

The Effective Interest Rate Method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including transaction costs and other premiums or discounts) through the expected life of the financial liability.

iv) Derecognition of financial liabilities

TPL-D (Dholera) derecognises financial liabilities when, and only when, TPL-D (Dholera)'s obligations are discharged, cancelled or waived off or have expired. An exchange between the TPL-D (Dholera) and the lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

2.10 Leases:

TPL-D (Dholera) as a lessee:

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by TPL-D (Dholera). Contracts may contain both lease and non-lease components.

Right-of-use assets:

Right-of-use assets are measured at cost comprising the amount of the initial measurement of lease liability and lease payments made before the commencement date.

Right-of-use assets are depreciated over the lease term on a straight-line basis. Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses if any, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, and lease payments made at or before the commencement date less any lease incentives received.

Right-of-use assets are depreciated over the asset's lease term on a straight line basis.-

Short term leases and leases of low value assets:

Payments associated with short-term leases of equipment and all leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less. Low-value assets comprise of rentals paid towards lease hold land.

TORRENT POWER LIMITED

Notes forming part of the financial statements for the year ended March 31, 2025

2.11 Amount presented and rounding off:

All amounts in the financial statements and notes have been presented in ₹ Lakhs rounded to two decimals as per the requirement of Schedule III of the Companies Act, 2013, unless otherwise stated. Figures below ₹ 5,000 are denoted by *

Note 2(b): Other accounting policies

2.12 Intangible assets - acquired:

Computer software is carried at cost less accumulated amortisation and accumulated impairment losses, if any. Amortisation is recognised on a straight-line basis over its estimated useful life of 3 years. The estimated useful life and amortisation method are reviewed at the end of each reporting period and the effect of any changes in such estimate being accounted for on a prospective basis.

Expenditure incurred on acquisition of intangible assets which are not ready to use at the reporting date is disclosed under "Intangible assets under development". An intangible asset is derecognised on disposal, or when no future economic benefits are expected from its use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

Notes forming part of the financial statements for the year ended March 31, 2025

Note 3: Critical accounting judgements and key sources of estimation uncertainty

In the course of applying the policies outlined in all notes under note 2 above, the management of TPL-D (Dholera) is required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

Such estimates and associated assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future period, if the revision affects current and future periods.

3.1 Revenue recognition:

TPL-D (Dholera) has recognised revenue (including the adjustment in respect of unapproved FPPPA Claims and other true up adjustment claims) as per the applicable tariff regulations / tariff orders and management's probability estimate.

3.2 Property, plant and equipment:

Service concession arrangements

TPL-D (Dholera) has assessed applicability of Appendix D of Ind AS 115 "Service Concession Arrangements" with respect to its property, plant and equipment. In assessing the applicability, TPL-D (Dholera) has exercised judgment in relation to the provisions of the Electricity Act, 2003, conditions provided under transmission and distribution license and / or agreements. Further, TPL-D (Dholera) has ability to pledge the assets pursuant to which it has control and ability to direct the use of assets. Based on such assessment, it has concluded that Appendix D of Ind AS 115 is not applicable.

3.3 Contingencies:

Contingent liabilities

In the normal course of business, contingent liabilities may arise from litigation and other claims against TPL-D (Dholera). Potential liabilities that are possible but not probable of crystallising or are very difficult to quantify reliably are treated as contingent liabilities. Such liabilities are disclosed in the notes but are not recognised. Potential liabilities that are remote are neither recognized nor disclosed as contingent liability. The management judgement is involved in classification under 'remote', 'possible' or 'probable' based on expert advice, past judgements, experiences etc.

3.4 Employee benefit plans:

Defined benefit plans and other long-term employee benefits

The present value of obligations under defined benefit plan and other long term employment benefits is determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual development in the future. These include the determination of the discount rate, future salary escalations, attrition rate and mortality rates etc. Due to the complexities involved in the valuation and its long-term nature, these obligations are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. Information about the various estimates and assumptions made in determining present value of defined benefit obligation are disclosed in note 34.2.

Note 30: Revenue from Contracts with Customers

(a) Unbilled revenue

(1) Revenue from Power supply also include unbilled revenue towards FPPPA claims and other true up adjustments which is recognised considering applicable tariff regulations/ tariff orders, past trends of approval and management's probability estimate.

(2) Movement in unbilled revenue

	As at March 31, 2025	(₹ in Lakhs) As at March 31, 2024
Opening balance	1,822.39	-
Add: Income accrued during the year as per tariff regulations / orders	4,351.86	1,877.67
Less: Amount billed during the year to the consumers as per tariff orders	(1,774.39)	(55.28)
Closing balance	4,399.86	1,822.39
Disclosed under		
Unbilled revenue [Refer note 14]	4,399.86	1,822.39
	4,399.86	1,822.39

(b) Contribution received from consumers

(1) Nature of contribution received from consumers

Contributions received from consumers towards property, plant and equipment has been recognised as deferred revenue over its useful life.

(2) Movement of contribution received from consumers

	As at March 31, 2025	(₹ in Lakhs) As at March 31, 2024
Opening balance	882.31	-
Add: Contribution received during the year	79.74	893.79
Less: Amortisation of contribution transferred to statement of profit and loss [Refer note 24]	(50.05)	(11.48)
Closing balance	912.00	882.31
Non-current portion [Refer note 18]	860.60	835.12
Current portion [Refer note 22]	51.40	47.19
	912.00	882.31

(c) Service line deposit from consumers

	As at March 31, 2025	(₹ in Lakhs) As at March 31, 2024
Opening balance	292.79	846.02
Add: Received during the year (net of refund)	47.20	340.56
Less: Transferred to contribution received from consumers	(79.74)	(893.79)
Closing balance [Refer note 22]	260.25	292.79

Footnote:

1. Service line deposits are collected against the cost of capital work to be carried out for new connection or load extension on application by consumers. On the completion of the work, such contribution is transferred to deferred revenue under the head "other current / non-current liabilities".

(d) Credit balance of consumers

	As at March 31, 2025	(₹ in Lakhs) As at March 31, 2024
Opening balance	1.35	*
Add / (less) : Adjustment to current billing (net)	(1.35)	1.35
Closing balance [Refer note 22]	*	1.35

Notes forming part of the financial statements for the year ended March 31, 2025

Note 31: Contingent liabilities and capital commitments

TPL-D (Dholera) has evaluated the impact of Supreme Court ("SC") judgement dated February 28, 2019 in the case of Regional Provident Fund Commissioner (II) West Bengal v/s Vivekananda Vidyamandir and Others, in relation to exclusion of certain allowances from the definition of "basic wages" of the relevant employees for the purposes of determining contribution to Provident Fund ("PF") under the Employees' Provident Fund & Miscellaneous Provisions Act, 1952. There are interpretation issues relating to the said SC judgement. Based on such evaluation, management has concluded that effect of the aforesaid judgement on TPL-D (Dholera) is not material and accordingly, no provision has been made in the financial statements.

(b) Capital and other commitments

Notes forming part of the financial statements for the year ended March 31, 2025

Note 34: Employee benefit plans

34.1 Defined contribution plan

TPL-D (Dholera) has defined contribution retirement benefit plans for its employees.

TPL-D (Dholera)'s contributions to provident fund, pension scheme and employee state insurance scheme are made to the relevant government authorities as per the prescribed rules and regulations. TPL-D (Dholera)'s superannuation scheme for qualifying employees is administered through its superannuation trust funds. TPL-D (Dholera)'s contributions to the above defined contribution plans are recognised in Capital work-in-progress. TPL-D (Dholera) has no further obligation in respect of such plans beyond the contributions made.

TPL-D (Dholera)'s contribution to provident, pension, superannuation funds and to employees state insurance scheme aggregating to ₹ 11.75 Lakhs (Previous year - ₹ 5.24 Lakhs) has been recognised in the statement of profit and loss under the head employee benefits expense [Refer note 26].

34.2 Defined benefit plans

(a) Gratuity

TPL-D (Dholera) operates through its gratuity trust, a plan, covering all its employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the TPL-D (Dholera) scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. The gratuity benefits payable to the employees are based on the tenure of employee's service and last drawn salary at the time of leaving. The employees do not contribute towards this plan and the full cost of providing these benefits are met by the TPL-D (Dholera). In case of death while in service, the gratuity is payable irrespective of vesting.

The TPL-D (Dholera) makes annual contribution to the gratuity schemes administered by the Life Insurance Corporation of India through its Gratuity Trust Funds. The liability in respect of plan is determined on the basis of an actuarial valuation.

(b) Risk exposure to defined benefit plans

The plans typically expose the Company to actuarial risks such as: asset volatility, interest rate risk, longevity risk and salary risk as described below:

Asset volatility

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on Indian government securities; if the return on plan asset is below this rate, it will create a plan deficit.

Interest risk

A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.

Longevity risk

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

The most recent actuarial valuation of the plan assets and the present value of the defined benefit obligation was carried out at March 31, 2025. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method.

(c) Significant assumptions

The principal assumptions used for the purpose of the actuarial valuation were as follows.

	As at March 31, 2025	As at March 31, 2024
Discount rate (p.a.)	7.02%	7.27%
Salary escalation rate (p.a.)	8.50%	8.50%

(d) The amount included in the balance sheet arising from the Company's obligation in respect of its defined benefit plans is as follows:

Balances of defined benefit plan

	As at March 31, 2025	(₹ in Lakhs) As at March 31, 2024
Present value of funded defined benefit obligation	11.43	12.62
Fair value of plan assets	9.25	8.70
Net liability [Refer note 23]	2.18	3.92

TORRENT POWER LIMITED
Dholera Distribution Area

Notes forming part of the financial statements for the year ended March 31, 2025

Note 34: Employee benefit plans(Contd.)

(e) Expenses recognised for defined benefit plan and movement of plan assets and liabilities

Following are the amounts recognised in statement of profit and loss, other comprehensive income, movement in defined benefit liability and movement in plan assets:

	(₹ in Lakhs)	
	Funded plan- Gratuity	
	As at	As at
	March 31, 2025	March 31, 2024
(1) Movements in the present value of the defined benefit obligation:		
Obligation at the beginning of the year	12.62	8.58
Current service cost	0.88	1.38
Interest cost	0.92	1.50
Actuarial (gains) / losses from changes in demographic assumptions	(0.15)	-
Actuarial (gains) / losses arising changes in financial assumptions	0.32	0.64
Actuarial (gains) / losses from experience adjustments	(0.12)	0.52
Benefits paid	(3.04)	-
Obligation at the end of the year	11.43	12.62
(2) Movements in the fair value of the plan assets:		
Plan assets at the beginning of the year, at fair value	8.70	8.80
Interest income	(0.53)	0.88
Return on plan assets (excluding interest income)	0.20	(0.76)
Contributions received	3.92	(0.22)
Benefits paid	(3.04)	-
Plan assets at the end of the year, at fair value	9.25	8.70
(3) Gratuity cost recognized in the statement of profit and loss		
Current service cost	0.88	1.38
Interest cost, net	1.45	0.62
Less: allocated to capital work in progress	-	(0.87)
Net gratuity cost recognized in the statement of profit and loss[Refer note 26]	2.33	1.13
(4) Gratuity cost recognized in the other comprehensive income (OCI)		
Return on plan assets (excluding interest income)	(0.20)	0.76
Actuarial (gains) / losses	0.05	1.16
Less: allocated to capital work in progress	-	(1.20)
Net (income) / expense for the period recognized in OCI	(0.15)	0.72
(f) Category wise plan assets		
Contributions to fund the obligations under the gratuity plan are made to the Life Insurance Corporation of India.		
(g) Sensitivity analysis		
Significant actuarial assumptions for the determination of the defined obligation are discount rate and expected salary increase. The sensitivity analysis given below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.		

	(₹ in Lakhs)	
Change in assumptions	As at	As at
	March 31, 2025	March 31, 2024
Increase / (decrease) in defined benefit obligation of gratuity		
50 basis points increase in discount rate	(1.52)	(1.59)
50 basis points decrease in discount rate	1.66	1.74
50 basis points increase in salary escalation rate	1.62	1.71
50 basis points decrease in salary escalation rate	(1.51)	(1.58)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet.

TORRENT POWER LIMITED

5th following year	2.24	1.92
sum of years 6 th to 10 th	9.67	9.29
more than 10 years	56.50	64.66

34.3 Other long-term employee benefit obligations

The leave obligation covers TPL-D (Dholera)'s liability for sick and earned leave. Under these compensated absences plans, leave encashment is payable to all eligible employees on separation from the Company due to death, retirement or resignation; at the rate of daily last drawn salary, multiplied by leave days accumulated as at the end of relevant period. Refer notes 23 and 26 for the leave encashment provision / change in the balance sheet and statement of profit and loss.

Note 35: Auditors remuneration (including taxes)

	<u>4,689.44</u>	<u>4,689.44</u>	<u>219.82</u>	<u>219.82</u>

Footnotes:

- 1 The carrying amounts of trade receivables, trade payables, capital creditors, other financial assets, other financial liabilities and cash and cash equivalents are considered to be the same as their fair values, due to their short-term nature.

(b) Fair value measurement

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable

Level 1 :	Inputs are Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
Level 2 :	Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable. This includes unquoted floating rate borrowings.
Level 3 :	Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable. This includes unquoted floating rate borrowings.

Notes forming part of the financial statements for the year ended March 31, 2025

Note 37: Financial instruments and risk review (Contd.)

(c) Financial risk management objectives

The Financial risk management objectives, Capital Management and Loan covenants are decided at the Company's level. TPL-D (Dholera)'s principal financial liabilities, comprise trade and other payables. The main purpose of these financial liabilities is to finance TPL-D (Dholera)'s operations, routine and projects capital expenditure. TPL-D (Dholera)'s principal financial assets include cash and cash equivalents, bank balance, trade receivables that derive directly from its operations.

TPL-D (Dholera)'s activities expose it to a variety of financial risks viz Interest rate risk, credit risk, liquidity risk etc . TPL-D (Dholera)'s primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. TPL-D (Dholera)'s senior management oversees the management of these risks. It advises on financial risks and the appropriate financial risk governance framework for TPL-D (Dholera).

Interest rate risk

TPL-D (Dholera)'s borrowings are on a floating rate of interest. TPL-D (Dholera) has exposure to interest rate risk, arising principally on changes in Marginal Cost of Funds based Lending Rate (MCLR). TPL-D (Dholera) uses a mix of interest rate sensitive financial instruments to manage the liquidity and fund requirements for its day to day operations like non-convertible debentures and short term credit lines besides internal accruals.

The following table provides a break-up of TPL-D (Dholera)'s floating rate borrowings:

	(₹ in Lakhs)	
	As at March 31, 2025	As at March 31, 2024
Floating rate borrowings	<u>4,399.00</u>	-
	<u>4,399.00</u>	-

Interest rate risk sensitivity:

The below mentioned sensitivity analysis is based on the exposure to interest rates for floating rate borrowings. For this it is assumed that the amount of the floating rate liability outstanding at the end of the reporting period was outstanding for the whole year. If interest rates had been 50 basis points higher or lower, other variables being held constant, following is the impact on profit for the year .

	(₹ in Lakhs)	
	Year ended March 31, 2025	Year ended March 31, 2024
Impact on profit before tax - increase in 50 basis	(22.00)	-
Impact on profit before tax - decrease in 50 basis	22.00	-

TORRENT POWER LIMITED
Dholera Distribution Area

Notes forming part of the financial statements for the year ended March 31, 2025

Note 37: Financial instruments and risk review (Contd.)

Credit risk

Trade receivables:

(1) Exposures to credit risk

TPL-D (Dholera) is exposed to the counterparty credit risk arising from the possibility that counterparties might fail to comply with contractual obligations. This exposure may arise with regard to unsettled amounts.

(2) Credit risk management

Credit risk is managed and limited in accordance with the type of transaction and the creditworthiness of the counterparty. TPL-D (Dholera) has established criteria for admission, approval systems, authorisation levels, exposure measurement methodologies, etc. The concentration of credit risk is limited due to the fact that the customer base is large. None of the customers accounted for more than 10% of the receivables and revenue for the year ended March 31, 2025. TPL-D (Dholera) is dependent on the domestic market for its business and revenues.

TPL-D (Dholera)'s credit policies and practices with respect to distribution areas are designed to limit credit exposure by collecting security deposits prior to providing utility services or after utility service has commenced according to applicable regulatory requirements.

(3) Other credit enhancements

TPL D (Dholera) collects the security deposits in the form of Cash or Bank guarantee, considering the relevant electricity regulations under the relevant geographical area to cover its credit risks associated with its trade receivables.

(4) Age of receivables and expected credit loss

TPL-D (Dholera) has used a practical expedient by computing the expected credit loss allowance for trade receivables. The expected credit loss allowance is based on ageing of the days the receivables are due. Trade receivable balances mainly comprise of outstanding from consumers wherein the credit period provided to such consumers is less than 30 days. Based on the historical trend the same is collected well within the credit period.

TPL-D (Dholera) segments the receivables for the purpose of determining rate of default based on shared risk characteristics i.e. Government Consumers / Non Government consumers, Status of Consumers i.e. Live consumers / Disconnected consumers and Security deposits provided by the Consumer. Considering the nature of the business, the historical loss rate is not significant.

The age of receivables and provision matrix at the end of the reporting period is as follows.

As at March 31, 2025

	Gross trade receivables	(₹ in Lakhs) Allowance for doubtful debt
Less than or equal to 6 months	583.56	-
	583.56	-

As at March 31, 2024

	Gross trade receivables	(₹ in Lakhs) Allowance for doubtful debt
Less than or equal to 6 months	85.86	-
	85.86	-

Other financial assets:

TPL-D (Dholera) is having balances in cash and cash equivalents, term deposits with scheduled banks with high credit rating and hence perceive low credit risk of default. The recoverable amount of unbilled revenue (including revenue gap/surplus) perceives low credit risk of default considering applicable tariff regulations / tariff orders and management's probability estimate.

Notes forming part of the financial statements for the year ended March 31, 2025

Note 37: Financial instruments and risk review (Contd.)

Liquidity risk

Liquidity risk is the risk that the TPL-D (Dholera) will encounter difficulty in meeting the obligations associated with its financial liabilities that are required to be settled by delivering the cash or another financial asset. The TPL-D (Dholera) manages liquidity risk by maintaining adequate reserves, banking facilities and unused borrowing facilities, by continuously monitoring projected / actual cash flows.

Maturities of financial liabilities:

The TPL-D (Dholera)'s remaining contractual maturity for its financial liabilities with agreed repayment periods is given below. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the TPL-D (Dholera) can be required to pay. The tables include both interest and principal cash flows. The contractual maturity is based on the earliest date on which the TPL-D (Dholera) may be required to pay.

TORRENT POWER LIMITED
Dholera Distribution Area

Notes forming part of the financial statements for the year ended March 31, 2025

Note 43: Social Security Code

The Indian Parliament has approved the Code on Social Security, 2020 ("Code") which may likely impact the obligations of TPL-D (Dholera) for contribution to employees' provident fund and gratuity. The effective date from which the Code is applicable and the rules to be framed under the Code are yet to be notified. In view of this, impact if any, of the change will be assessed and accounted in the period in which the Code and the rules thereunder are notified.

Note 44: Electricity Distribution (Accounts and Additional Disclosure) Rules, 2024

The Ministry of Power has notified Electricity Distribution (Accounts and Additional Disclosure) Rules, 2024 ('the Rules') in pursuance of Section 176(1) and 176(2)(z) of the Electricity Act, 2003 read with second proviso to Section 129 (1) of the Companies Act, 2013, which are applicable to Distribution Licensees and effective from the date of notification in the Official Gazette i.e. October 24, 2024. The impact of the said circular on the financial statement for the year ended March 31, 2025 is not material. Further, as per proviso to rule 6(2) of the said Rules, TPL-D (Dholera) has chosen to publish the Additional Disclosure Statements in Integrated Annual Report FY 2024-25, as permitted during the first year of implementation.

Note 45: Audit Trail in Accounting Software

TPL-D (Dholera) has been using SAP ERP as a book of accounts. While SAP audit logging has been enabled from the beginning of the year and captures all the changes made in the audit log as per SAP note no 3042258 version 7 dated March 06, 2024. However, changes made using certain privileged access with debug functionality for capturing "old value" and "new value" of changes made was configured on March 10, 2025.

After thorough testing and validation of tolerable impact on performance of SAP system, the audit trail at Database level was configured on March 27, 2024. Due to standard database functionality of HANA DB, while changes made are logged in the database, it does not capture "old value" of changes made. This is SAP related issue and management is working towards resolving the same with the vendor. As a part of privileged access management, TPL-D (Dholera) has implemented ARCON make PAM (Privileged Access Management System) suite. This PAM system provides access based on need/approval and does the video recording of all activities carried out by privileged user. This is a secondary control implemented to mitigate the risk associated with HANA database.

Note 46: Additional regulatory information required by Schedule III

(a) Compliance with number of layers of companies

The Company is in compliance with number of layers of companies in accordance with Proviso of clause (87) of section 2 of the Companies Act, 2013 read with the Companies (Restriction on number of Layers) rules, 2017 during the year ended March 31, 2025 and March 31, 2024.

(b) Details of crypto currency or virtual currency

The Company has not invested or traded in Crypto Currency or Virtual Currency during the year ended March 31, 2025 and March 31, 2024.

(c) Details of benami property held

No proceedings have been initiated on or are pending against the Company for holding benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended in 2016) (formerly the Benami Transactions (Prohibition) Act, 1988 (45 of 1988)) and Rules made thereunder during the year ended March 31, 2025 and March 31, 2024.

(d) Wilful defaulter

The Company has not been declared Wilful Defaulter by any bank or financial institution or government or any government authority during the year ended March 31, 2025 and March 31, 2024.

(e) Undisclosed income

During the year ended March 31, 2025 and March 31, 2024, the Company has not surrendered or disclosed as income any transactions not recorded in the books of accounts in the course of tax assessments under the Income Tax Act, 1961 (such as, search or survey or any other relevant provisions of the Income Tax Act, 1961).

(f) Transactions with struck off companies

TPL-D (Dholera) does not have any transactions with companies struck off under section 248 of the Companies Act, 2013 or section 560 of Companies Act, 1956 during the year ended March 31, 2025 and March 31, 2024.
