

SUSTAINABILITY POLICY

Torrent Power Limited - Distribution (TPL-D) is committed to integrate economic progress, social responsibility and occupational health, safety and environmental concerns with the objectives of improving quality of life and to be a globally leading and sustainable power distribution company.

TPL-D believes in integrating its business values and operations to meet the expectations of its stakeholders, i.e. customers, employees, partners, investors, communities and public at large.

TPL-D is committed to comply with all applicable legislative and other requirements and provide clean, safe and healthy work environment to all its employees and stakeholders.

TPL-D shall endeavor to:

- > Adhere to the promised standards of service delivery to its customers.
- > Encourage and support stakeholders to adopt best practices aligned with its core values for long term sustainability.
- > Respect the universal declaration of human rights, International Labor Organization's fundamental conventions on core labor standards and operate as an equal opportunity employer.
- > Implement sustainable community development programs in and around its area of operations.
- > Encourage employees to serve the communities by volunteering and sharing their skills and expertise for CSR activities and protection of environment.
- > Extend help to the communities that are affected by natural calamities or those who are under privileged or physically challenged to the extent possible.
- > Deploy state of the art technology and continuously upgrade the systems and processes to minimize use of natural resources in all its operations.
- > Promote sustainable procurement and life cycle concept in all business activities.
- > Ensure that appropriate resources are available to fully implement sustainability programs and the Sustainability Policy.
- > Review and update the Sustainability Policy periodically.
